orbotriq

Run every brand’s growth from one control tower.

Social, ads, SEO, analytics and AI search visibility for every client, in one platform.

vaanio-app.web.app | +91 86086 73298

Agencies juggle a different set of tools for every client

The daily reality

- Separate logins for Facebook, Instagram, ads, Search Console and Analytics
- Manual reports copied into slides each month
- No view of how AI assistants talk about the client
- Hard to show clients the value you deliver

With Orbotriq

- One workspace per client, one login for you
- Data syncs every night, reports are always ready
- GEO audit and AI visibility tracking built in
- Clear scores and next best actions for every brand

orbotriq

Meet Orbotriq

Growth Intelligence for agencies and multi-brand businesses

One control tower for every brand you grow: social, ads, SEO, analytics and AI search visibility, with a separate workspace for each client.

Seven modules, one login

Social command center

Facebook and Instagram performance for every client page in one view.

Ads control

Meta ad spend, results and campaign control by client.

SEO workbench

Audits, Search Console data and a daily keyword tracker.

Analytics

Google Analytics users, sessions and channels matched to each brand.

GEO for AI search

Audit AI readiness, track AI mentions and generate AI-ready content.

Publishing

Schedule Facebook and Instagram posts for any connected page.

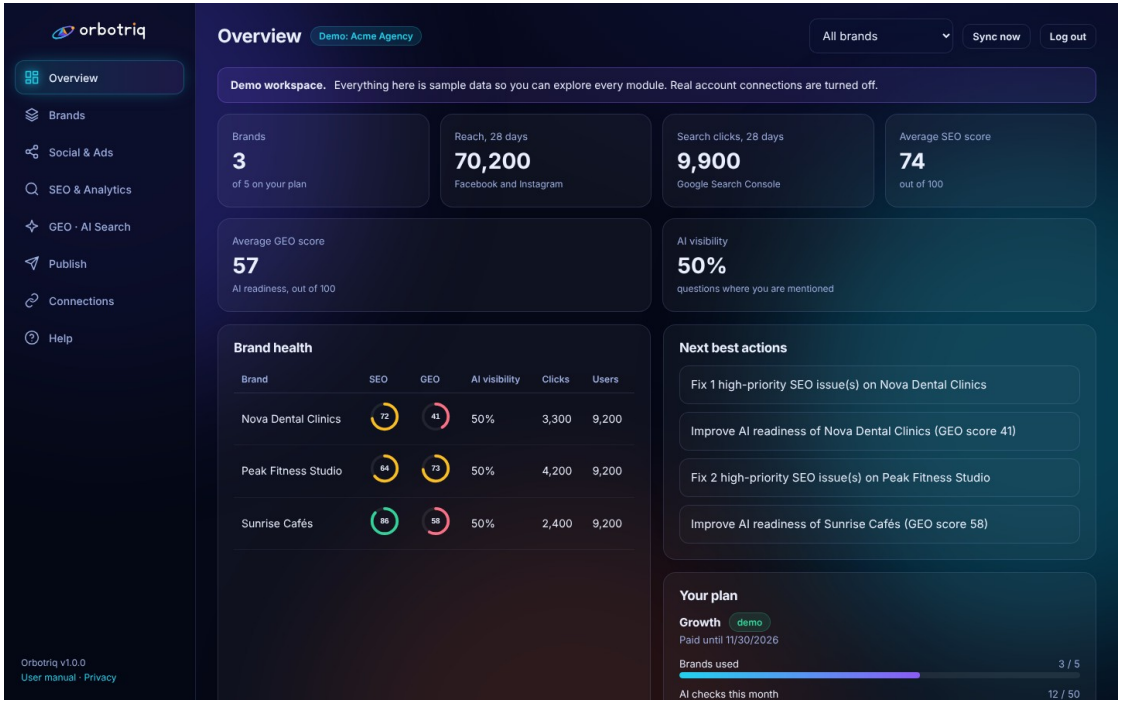

Control tower

Super admin console to run the whole business.

orbotriq

A client dashboard that explains itself

Scores, trends and next best actions for every brand

- Overview shows reach, clicks and scores at a glance
- Brand health table highlights what needs attention
- Next best actions tell the team what to do today
- Plan usage keeps clients aware of their allowance

orbotriq

GEO: be the answer AI assistants give

Generative Engine Optimization makes a brand easy for ChatGPT, Gemini and Perplexity to find, trust and cite.

GEO audit

100-point score for crawler access, llms.txt, schema, FAQs, structure and trust signals.

AI visibility tracker

Asks your customers' questions and records whether the brand is mentioned or cited.

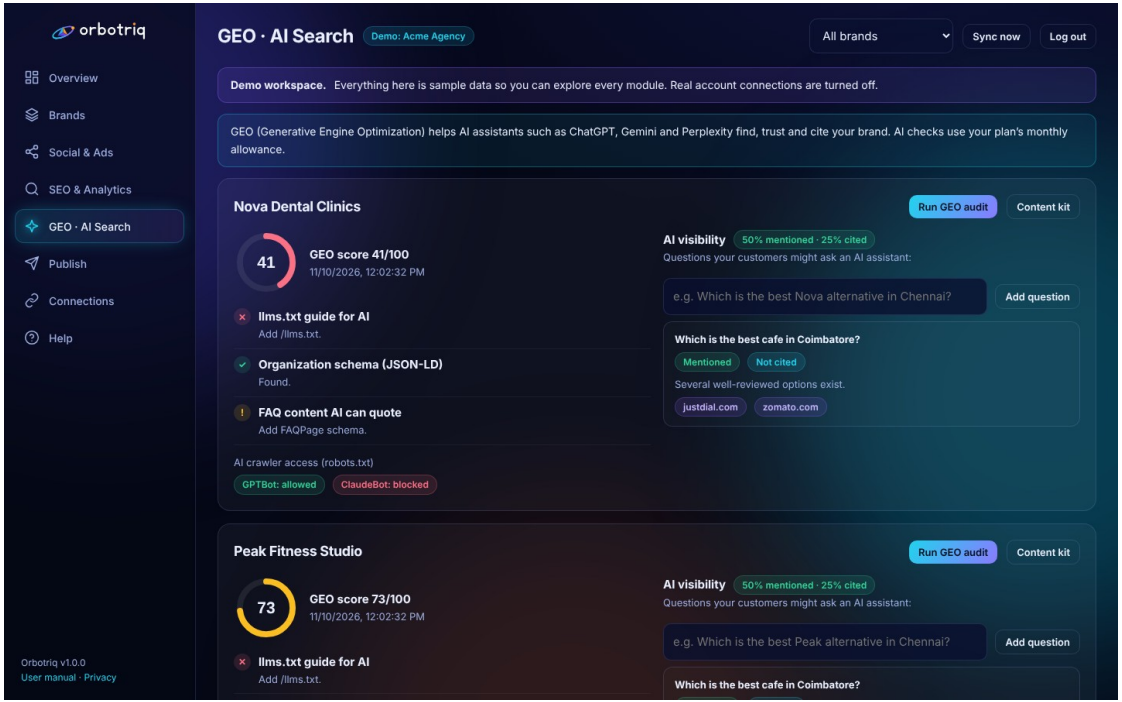

AI-ready content kit

Drafts llms.txt, schema markup and answer-first snippets to publish.

See GEO working

Checklist, AI crawler access and AI visibility results per brand

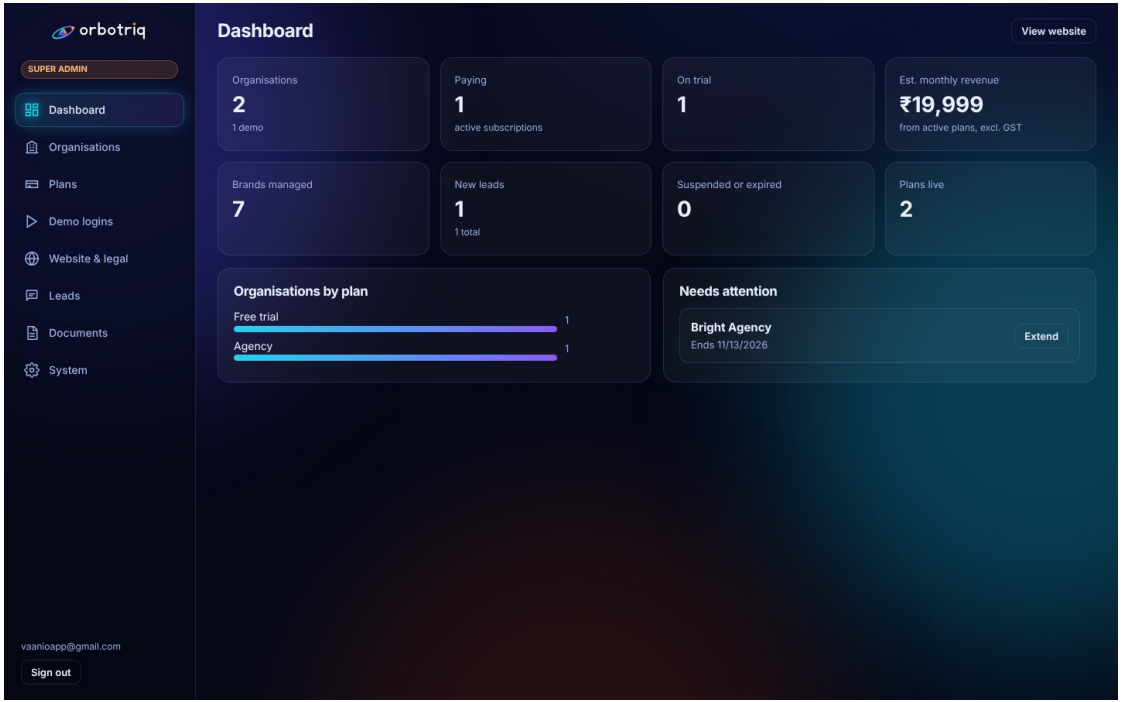

- Every check explains how to fix it
- Spot blocked AI crawlers in seconds
- Track up to five customer questions per brand
- See which sources AI relies on

orbotriq

A control tower for the platform owner

Super admin console

- Create organisations, plans and logins
- Extend, suspend, upgrade or view any workspace
- One-click demo logins with sample data
- Edit the website, legal pages and manual live
- Track leads and revenue

orbotriq

Built to be trusted with client data

Organisation isolation

Every client sees only its own workspace. Rules are enforced by the database, not just the screen.

Tokens stay on the server

Access tokens for Meta and Google are stored server-side and never sent to the browser.

Role-based access

Owner, admin, staff and viewer roles control who can connect accounts, publish or only view.

Consent and control

Clients choose what to connect, can disconnect at any time and can delete synced data.

Privacy by design

Aligned with India's DPDP Act, Google API Limited Use and Meta Platform requirements. No selling of data.

Audit trail

Administrative changes and campaign actions are logged for each organisation.

orbotriq

Plans that grow with your client list

Indicative prices excluding GST. Final prices set by Orbotriq.

Plan	Price	Brands	AI checks / month	Highlights
Starter	₹2,999 / month	1 brand	20	Social, SEO, analytics and GEO audit

Enterprise	Custom	Custom	Custom	Onboarding, training and custom limits

orbotriq

Where Orbotriq is heading next

Client report portal

White-label dashboards and scheduled PDF or email reports for each client.

AI growth copilot

Ask questions in plain English about any brand and get an action plan.

Competitor and AI share of voice

See which competitors AI assistants recommend instead and by how much.

More channels

LinkedIn, YouTube, Google Business Profile and WhatsApp Business.

Smart alerts

Ranking drops, ad overspend, broken pages and AI visibility changes sent to email or WhatsApp.

Billing and team seats

Online payments and invoices, team invitations and per-brand permissions.

Reviews and reputation

Collect, monitor and reply to Google reviews.

Content calendar with AI drafts

Plan, draft, approve and publish content for every brand.
